## SENIOR ACTIVITIES MANAGERS

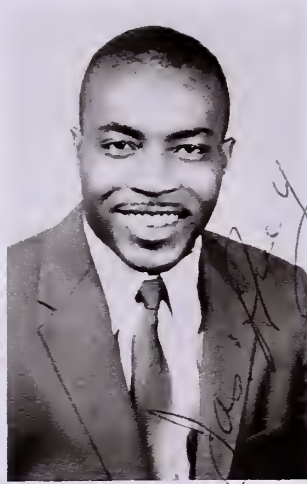

The purposes of the Ways and Means Committee are: (1) plan ways to adequately finance all general activities of the class, (2) to serve as a steering committee in seeing that the plans are developed, and (3) to obtain valuable experience in budgeting, record keeping, bookkeeping, letter writing, auditing, typing, and making personal face to face contact.

Money is essential to business, trade schools, churches, and other institutions and projects. A great economist once said that systematic, wise planning, spending, investing, and saving are the keys to financial services. The Ways and Means Committee dedicated itself to the task of obtaining the keys to financial success.

## CLASS SONG

### Words

Now at last the time has come for us to say good-bye;  
from thy partals we must part and look back with a sigh.  
Although we lack ability to meet our every test;  
you've shown us how to meet them so we'll do our very best.

### Chorus

Oh Carver, dear Carver, we've gained so much from you;  
To higher aims we'll strive to show  
That we'll be ever true.

We, the members of the 1958 Senior Class of George Washington Carver High School, make this our last will and testament. With both sorrow and joy, we do hereby bequeath our personalities, inclinations, and intellectual curiosity to the lower classmen, who have yet to master the three R's.

# CLASS HISTORY

Louise Gray  
Barbara Wallace

September third, nineteen hundred fifty-three, was an exciting day for two hundred forty-five enthusiastic, young eighth graders who enrolled in Carver High School with open minds for wisdom, and hearts open for friendship. We, the two hundred forty-five students, were from Culpeper, Orange, Madison and Rappahannock counties.

We spent the first year exploring under the leadership of Mr. Hawkins, Miss Brown, Mrs. Hooper, Mrs. Michie, Mr. Goodman, Mrs. Jackson the first semester and Miss Mealy the second semester. We did not participate in many school activities, because we had not become adjusted to the school.

During our freshman year at Carver, we became more interested in our school work and more co-operative in school activities. We had for our sponsors that year: Mrs. Michie, Mrs. Hooper, Miss Mealy, Mr. Hawkins and Mr. Goodman.

We participated in such activities as: Handicraft Club, N.H.A. Club, Library Club, N.F.A., Choir and Band. It was during this year that the girls won the intermural basketball championship game. We were thrilled and enthused about winning at such an early stage in high school.

Our Sophomore year rolled around so fast that we could hardly believe that it was our third year at Carver. Again, Mr. Hawkins, Miss Mealy, Mrs. Hooper, Mrs. Michie, and Mr. Kearney were our sponsors. We participated mainly in such activities as: Newspaper Club, Camera Club, Choir, Band, and Basketball. We were again the basketball champions. This made us very happy and proud indeed.

Our Junior year arrived at last. We were very excited because we had to sponsor the Junior-Senior Prom, which took a lot of work, but we enjoyed every minute of it. Besides sponsoring the Junior-Senior Prom, we also sponsored a baby contest, which was very successful. That year we worked harder than ever because we were looking forward to becoming seniors.

We were again looked upon as champions, for the girls and boys both won the intermural basketball championship game which made us feel that we had succeeded in accomplishing one of the goals we had strived for. Our sponsors that year were: Mr. Hawkins, Miss Mealy, Mrs. Hooper and Mr. Tomlinson.

At last we have finally reached an important milestone in our lives; our senior year with only ninety-one of us continuing to aspire for knowledge. Again we are under the splendid leadership of Mr. Hawkins, and two new sponsors: Miss Moore, and Mr. Poole.

Taking a backward glance, we realize that we have gained many worthy ends here at Carver which will long linger in the hearts of us, the ninety-one students.

We are now ready to take another important step into the future. With heads erect, and well adjusted minds we feel that we are fortified to meet many of life's challenging situations. Many of us will strive to advance ourselves educational and become great leaders of tomorrow, while others will cling to that which we have; but, whatever the tide, we shall always remember to strive, "Ever onward, upward."

# WE WORK WE STUDY

There is nothing so useful to man in general, nor so beneficial to particular societies and individuals as trade. This is that Alma Mater, at whose plentiful breast all mankind are nourished.

Practical experiences is a motivating force in developing the youth who will be the leaders in our trade and industrial world in years to come. Such experiences as shown in the above picture is exemplary of the kind of training that is rendered by the Industrial Arts Department of the George Washington Carver High School.

## "THE WILL TO WIN AND THE COURAGE TO WORK"

The New Farmers of America is a National Organization of farms boys studying Vocational Agriculture in the public schools throughout the United States. Organized in Virginia in May, 1927, with a few chapters and members, it has expanded until now it numbers some 1100 chapters and over 42,000 active members.

The O. R. Johnson Chapter, named after Dr. O. R. Johnson, Teacher-Trainer at Virginia State College, is one of the most progressive chapters in the State of Virginia. It is only through the eagerness and enthusiasm of our members that we are able to maintain such a status.
